Hunting Tours in TÜRKİYE

What a hunter wants to realize in his life
There are many hunting dreams.

One of them is definitely really strong,
shooting a mature wild boar.

Hunting Tours in Türkiye

The process of catching or shooting non-domestic animals that live on land, sea or other streams is known as hunting. The person engaged in hunting is also called a hunter. Hunting, which has been a vital activity since the existence of humanity, has therefore survived to the present day and is still existing. However, this activity, which is carried out with certain regulations, is very important for the protection of fauna.

Because hunting is of great importance in terms of preventing poaching and preventing animal species from being superior to subspecies. So, what are the things to know about hunting?

By leaving the place of permanent residence; It is known as a type of tourism that includes taking advantage of touristic goods and services for the purpose of having fun, resting and performing recreational activities, contributing to the local economy in the destination and giving priority to local values by considering the ecological balance.

What is Hunting Tourism? This is the clearest answer that can be given to the question. Subsequently; The hunting activity carried out within the framework of the necessary rules, taking into account the determined game animals in the specified hunting grounds during the hunting season, is known as hunting tourism.

There is a fee to be paid for each animal that the visitor wants to hunt, and if he wants to take the animal abroad, he has to bear various fees. All these details are included in the Hunting Tourism Regulation.

Its mountainous terrain and climate make Türkiye a perfect place for hunting tourism. The Mediterranean and Aegean Regions, especially the Taurus, Kazdağı, Kaçkar, Yıldız, Aladağ, Bolkar and Tahtalı mountains, offer indispensable places for hunting and adventure lovers.

Türkiye, which has many historical and natural beauties due to its geographical location, is among the richest regions in terms of animal diversity. Among the animals allowed to be hunted, wild boar takes the largest share.

Although it was not known by hunting enthusiasts until 20 years ago, it has become one of the most popular hunting centers in Asia in recent years. Türkiye, which has a large stock of wild animals due to the fact that hunting is not very common, attracts the attention of hunting enthusiasts.
